

POSTING OF WORKERS

ALL SECTORS

Are you a foreign company posting workers in Europe?

YOUR OBLIGATIONS

Prior declaration of posting

For each posted worker, you are required to complete a prior declaration of posting. As your representative, we offer to complete the prior declarations of posting for all your posted employees. You will instantly receive the receipt of the declaration you must provide your employee with before the start of his/her mission.

Representation contract

When you post workers in Europe, you are required to appoint a representative who will serve as liaison between authorities and your company. Our service evidently includes this key point.

Assistance in case of check by authorities

Checks are liable to be carried out by Work Inspection, Police or Gendarmerie, on your posted workers on site. During a check, the representative provides all the necessary documents to prove your compliance, and addresses all the authorities' requests.

OUR GOAL?

Allow you to spend time on developing your company while we take care of all the formalities relating to the posting of workers in construction, service, transport, events, real estate, temporary employment...

PAY ATTENTION TO THE PENALTIES

By failing to provide a posting certificate and to appoint a representative, an employer is subject to a fine. The amount varies according to the posting country (*for example from 2 000€ to 500 000€ in France*).
