ASD SMARTLINE, THE APPLICATION THAT SPEEDS UP YOUR CUSTOMS CLEARANCE

Centralised management of all your transits

Drivers can retrieve all the documents related to the various transits at any time directly from the application, whether they are made via the ferry or the Channel Tunnel. **This saves a lot of time during controls.**

Centralised management of all your MRNs

Tracking of all your MRNs (Master Reference Numbers) in the application that have been previously deposited in our ASD Customs solution by the driver's carrier.

Report your position on arrival to our on-site teams

ASD Smartline is a mobile tool for centralising your customs operations. All of this is designed to give you peace of mind during the controls that our teams carry out on site for you!

Fleet manager

The ASD Smartline application is linked to our SaaS application ASD Customs.

You can follow all the steps live until you are allowed to leave the car park.

With ASD Smartline, your passages are accelerated and made more fluid. Long queues and customs stops are avoided!

FEATURES

- ✔ Log in with a simple unique ID number. *
- ✔ Create and initiate a transit movement with one or more files.
- ✔ Consult the documents related to your file such as the MRN of the transit movement as a PDF.
- ✔ Report your boarding of a ferry or your passage through the Euro-tunnel.
- ✔ Report the end of your crossing from the UK as soon as you arrive in the EU.
- ✔ Communicate the arrival of your goods at the car park and the number of the space you occupy so that the ASD Group teams can take charge of you and start the control.
- ✔ Report that a check is in progress.
- ✔ Report that the goods have arrived, that the transit movement has been completed and that the file is closed.
- ✔ View the entire journey history of your goods and all related documents.
