ASD QUICKPROOF, THE COMPLIANCE SOLUTION FOR THE 'QUICK FIXES'

Centralised management of all your documents

You can load all the documents relating to your various customs operations and collect them at any time. **This saves you a lot of time during inspections.**

Collaborative work between all the parties involved

With all the parties involved (logistics, accountants, transporters and customers) having access to our platform, collecting and ensuring **compliance with the mandatory documents is simplified**. Your security is also at stake, because of all the parties involved, only the seller risks VAT adjustments.

Optimised overview for document tracking

ASD Quickproof is a **tool for centralising your proofs of delivery, transport tracking and intra-Community operations**, designed to save you time and provide automatic or manual reminders at your convenience.

Ongoing assessment of your tax risk

Your accounting departments will be able to assess the financial risk involved at any time, and so limit the risk of VAT exemption being called into question because of missing or incomplete evidence. They will therefore be able to check:

- The documentary status of each shipment;
 - Whether the carrier's quotation and final invoice tally.
- Don't underestimate the value of your documents! Don't risk losing 20% of your turnover.**

ASD Quickproof is the most comprehensive solution to prevent your VAT exemption from being called into question.

Protect up to 20% of your company's turnover with ASD Quickproof!

ASD QUICKPROOF FEATURES

- ✓ Centralised, easy-to-use dashboard.
- ✓ Access to your personal «MyASD / QuickProof» area, where you can manage your subscription, view an overview of your invoices and payments, etc.
- ✓ Creation and operational management of intra-Community deliveries (dates, identification of the various parties involved, entry of the amount of the delivery, downloading of the required proofs of transport (type 1, 2 and quantity required)).
- ✓ Download and validate proof of transport via single pages without having to connect to the MyASD - ASD QuickProof platform (upload documents, download a certificate, select the carrier, etc.).
- ✓ Counters for proofs downloaded and deliveries received.
- ✓ Calculation and estimation of VAT risk per month.
- ✓ Notifications for each procedure.
- ✓ Search by invoice number, delivery note number, etc.

* From €9.99 excluding VAT per month.
