

Intrastat thresholds in the European Union in 2024

IS YOUR COMPANY SUBJECT TO VAT AND TRADES GOODS IN THE EUROPEAN UNION?

You are therefore concerned by the Intrastat declarations.

Trade within the European Union is subject to thresholds and the obligation to submit two separate declarations:

- A VAT summary statement in France and EU Sales List in the rest of the European Union,
- A statistical survey, called EMEBI (Enquête statistique mensuelle sur les échanges de biens intra-Union européenne or Monthly statistical survey on intra-EU trade in goods) in France, Intrastat in the rest of the European Union.

Find hereafter the Intrastat 2024 thresholds for all European Union Member States and the United Kingdom.

* The euro is the currency of Croatia since 1st January 2023, replacing the kuna.

** The Danish administration has two filing schedules assigned to two groups. The filing dates will therefore depend on whether you have been assigned to group 1 or group 2.

*** The thresholds of EUR 460,000 for introduction and EUR 1 for dispatch have been repealed. Companies have to file this declaration on a monthly basis as soon as they have received a letter from the customs administration (it can be an introduction declaration, a dispatch declaration or both depending on the letter received).

**** N/A: not applicable. No Intrastat obligation.

Note: the information contained above is subject to change each year. This table is provided for information only.
